

CRIME LABORATORY JOB FAMILY

CAREER PATH

Forensic Scientist Supervisor

This supervisory position is accountable for overseeing and coordinating complex and technical work in the analysis and handling of forensic evidence. An employee may supervise the work and staff of one or more of the following specialties: Combined DNA Index System (CODIS), DNA Casework, DNA Screening, Drug Chemistry, Firearms/Toolmarks, Latent Prints, Toxicology, or Trace Evidence. An employee must maintain proficiency-tested expertise in their assigned discipline, as applicable. Direction is received from the management staff that makes special assignments and reviews the work through the evaluation of reports and meetings. An employee may also be responsible for the daily operations of their assigned laboratory. Employee supervision includes hire recommendations, training, planning and assigning work, performance assessment, coaching, and progressive discipline. Supervision at this level also requires the employee to have the knowledge and skills to perform and review the work overseen.

Knowledge, Skills, and Abilities

Thorough and comprehensive knowledge of and the ability to demonstrate understanding and successful interpretation, explanation, and application of all assigned areas of the crime laboratory, as well as the laws, principles, and practices as they are related to implementation within the agency.

Thorough and comprehensive knowledge of and the ability to demonstrate understanding and successful interpretation, explanation, and application of the agency's policies, procedures, rules, and regulations in the performance of duties.

Comprehensive working knowledge of and the ability to demonstrate successful use of computer equipment and associated software/databases in the performance of duties.

Comprehensive working knowledge of and the ability to demonstrate successful operation and use of designated crime laboratory equipment and associated software systems in the performance of duties.

Comprehensive working knowledge of and the ability to demonstrate understanding and successful use of the principles and practices of project management techniques in the performance of duties.
