

SCALE MAINTENANCE JOB FAMILY

CAREER PATH

Senior Scale Maintenance Worker

This is advanced vocational-level work specializing in an area supporting the inspection, maintenance, and testing of fixed and portable scales, as well as clinical weighing equipment, utilized for, and in support of, the State of Missouri's commercial vehicle enforcement program. Areas may include but are not limited to electrical, electronics, carpentry, concrete and masonry, welding, and/or painting. An employee will be required to operate a diesel truck with a manufacturer's rated capacity of at least 15 tons. At this level, employees are seen as the go-to resource for the most complex issues. An employee may act as a lead worker over lower-level employees (e.g., adjusting work assignments and schedules to maintain staffing levels, providing training and mentorship, signing off on work). An employee serves as a project contractor/coordinator for installation or replacement of systems requiring design (e.g., prioritize tasks for each phase of work; requisition materials and supplies; and liaise with state entities, external stakeholders, etc.). An employee participates in operational administration (monitor and account for inventory, and recommend need for outside contractors, create job specifications, recommend bids for approval, and monitor work).

Knowledge, Skills, and Abilities

In addition to those identified in the previous levels within this career path:

Comprehensive knowledge of and the ability to demonstrate understanding and successful interpretation, explanation, and application of all assigned areas of scale maintenance, as well as the laws, principles, and practices as they are related to implementation within the agency.

Comprehensive knowledge of and the ability to demonstrate understanding and successful interpretation, explanation, and application of the agency's policies, procedures, rules, and regulations in the performance of duties.

Comprehensive knowledge of and the ability to demonstrate successful operation and use of designated scale maintenance equipment, parts, tools, supplies, and associated software systems in the performance of duties.

Working knowledge of and the ability to demonstrate successful use of computer equipment and associated software/databases in the performance of duties.

Working knowledge of and the ability to demonstrate understanding and successful use of the principles and practices of project management techniques in the performance of duties.
